| About me

I am a FrontEnd developer and UI-oriented graphic designer, with more than **5 years of experience** implementing UI, as well as in the area of interactivity and functionality. I have skills in **HTML5/CSS3/JavaScript web development** using different frameworks and libraries: **Angular**, **ReactJS** or **VueJs**, and in the implementation of user interfaces for mobile apps through frameworks like **SenchTouch** and **ReactNative**. I have also worked as a UI designer creating prototypes and wireframes in **Figma** and **AdobeXD**. Enthusiastic and passionate about new technologies; always open-minded to learn new things.

| Experience

Monetta
Position: Frontend Developer | React-Native Developer
October 2021 - At Present

Design and development of modules and reusable components for the main app in **React-Native**. Design and development of modules and components for the product's administrative CMS in **React** and **Tailwindcss**. Design and development of static web pages in **HTML**, **CSS** and **Javascript**. Design of components in **Figma** . Support in the improvement or creation of **backend** services using **NestJS**.

Cetoco
